Creative Technologist · Design + Frontend + AI

krilleandersen@gmail.com · +45 22 42 04 59 · Copenhagen, DK · LinkedIn · GitHub

Creative technologist with 25+ years across visual design, digital production and frontend engineering — and the rare ability to carry an idea from the first sketch to a shipped product in the browser. Today I drive AI adoption across a development team and work hands-on with AI coding and agent tools every day. My conviction: augment and 10x people with AI — don't replace them. Award-winning creative background (Gold, 2014).

EXPERIENCE

Frontend Web Developer · Sambla Group

Oct 2025 – Present

- Build frontend web solutions across Sambla Group's products and brands.
- AI ambassador for the organisation — drive adoption of AI coding and agent tools (incl. Claude Code) across the development team.
- Use AI-assisted development hands-on to raise delivery speed and code quality in daily production.
